Drape Packs

Our standard drape packs are extremely useful as an easy and good practice draping solution for varied animal sizes.

The adhesive edges allow you to create the necessary size of fenestration, without any need to cut into drapes.

There are four drapes in each pack to achieve the 'four square' drape system. The trolley cover wrapping creates a sterile field so the pack is ready to be used.

These drape packs are great value for money and save on ordering and set up times.
